PROJECTS

Developer Portfolio

Technologies: HTML5, CSS3, GitHub Pages

- Developed a fully responsive, multi-section developer portfolio to showcase technical projects and skills.
- Optimized layout for mobile and desktop environments using modern CSS architecture.
- Managed version control and successfully deployed the live site via GitHub Pages.

SKANS AI – Scam Detection Web Platform

Technologies: HTML, CSS, JavaScript, Node.js

- Engineered a Node.js-backed web application to rapidly analyze and flag phishing URLs, improving threat detection visibility.
- Implemented a robust rule-based logic system, categorizing URLs into Low/Medium/High risk tiers with automated precision.
- Optimized local asynchronous route handling in Node.js to parse and evaluate URL strings under 200ms.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python
- **Web Technologies:** HTML, CSS, JavaScript
- **Core CS:** DSA, COA, ADE
- **Tools:** VS Code, Git & GitHub

CERTIFICATIONS

- **Udemy** – Python Programming, C Programming Bootcamp - Mastered core logic and OOP.
- **Coursera** – Computational Thinking, Data Structures and Algorithms - Optimized algorithmic problem-solving.
- **NPTEL** – Developing Soft Skills & Personality, Moral Thinking and Values - Enhanced professional workplace communication.

EXPERIENCE

SIT Photography Club – Content Writer

Oct 2024 – Mar 2025

- Developed and curated written content for social media posts, event promotions and club communications
- Collaborated cross-functionally with photographers and design teams to align narratives with visual branding
- Improved audience engagement through concise, audience-centric copy
- Maintained consistency in tone, messaging and brand voice across platforms

EDUCATION

Siliguri Institute of Technology – Siliguri

2024 - Present
